WHO WE ARE

Our Company was Established Since 1970's in the name and style of 'M/S. AHMED & SONS' in Karachi City Pakistan. Which Manufactures best quality Garniture Tapes & Suction Tapes being used in the cigarette and filter manufacturing organizations.

We guarantee the standard, quality and efficiency of our products processes and company. Our aim is to quickly implement ideas and solutions for the benefit of our customers via an ongoing process of improvement. With intelligent products and a wide variety of services in our capacity as their partner we help our customers not only to be able to produce optimally but also achieve their goals and secure competitive advantages.

Our quality products are always found to be much feasible and beneficial for our valued customers as such we have vast demand of our products all around the world.

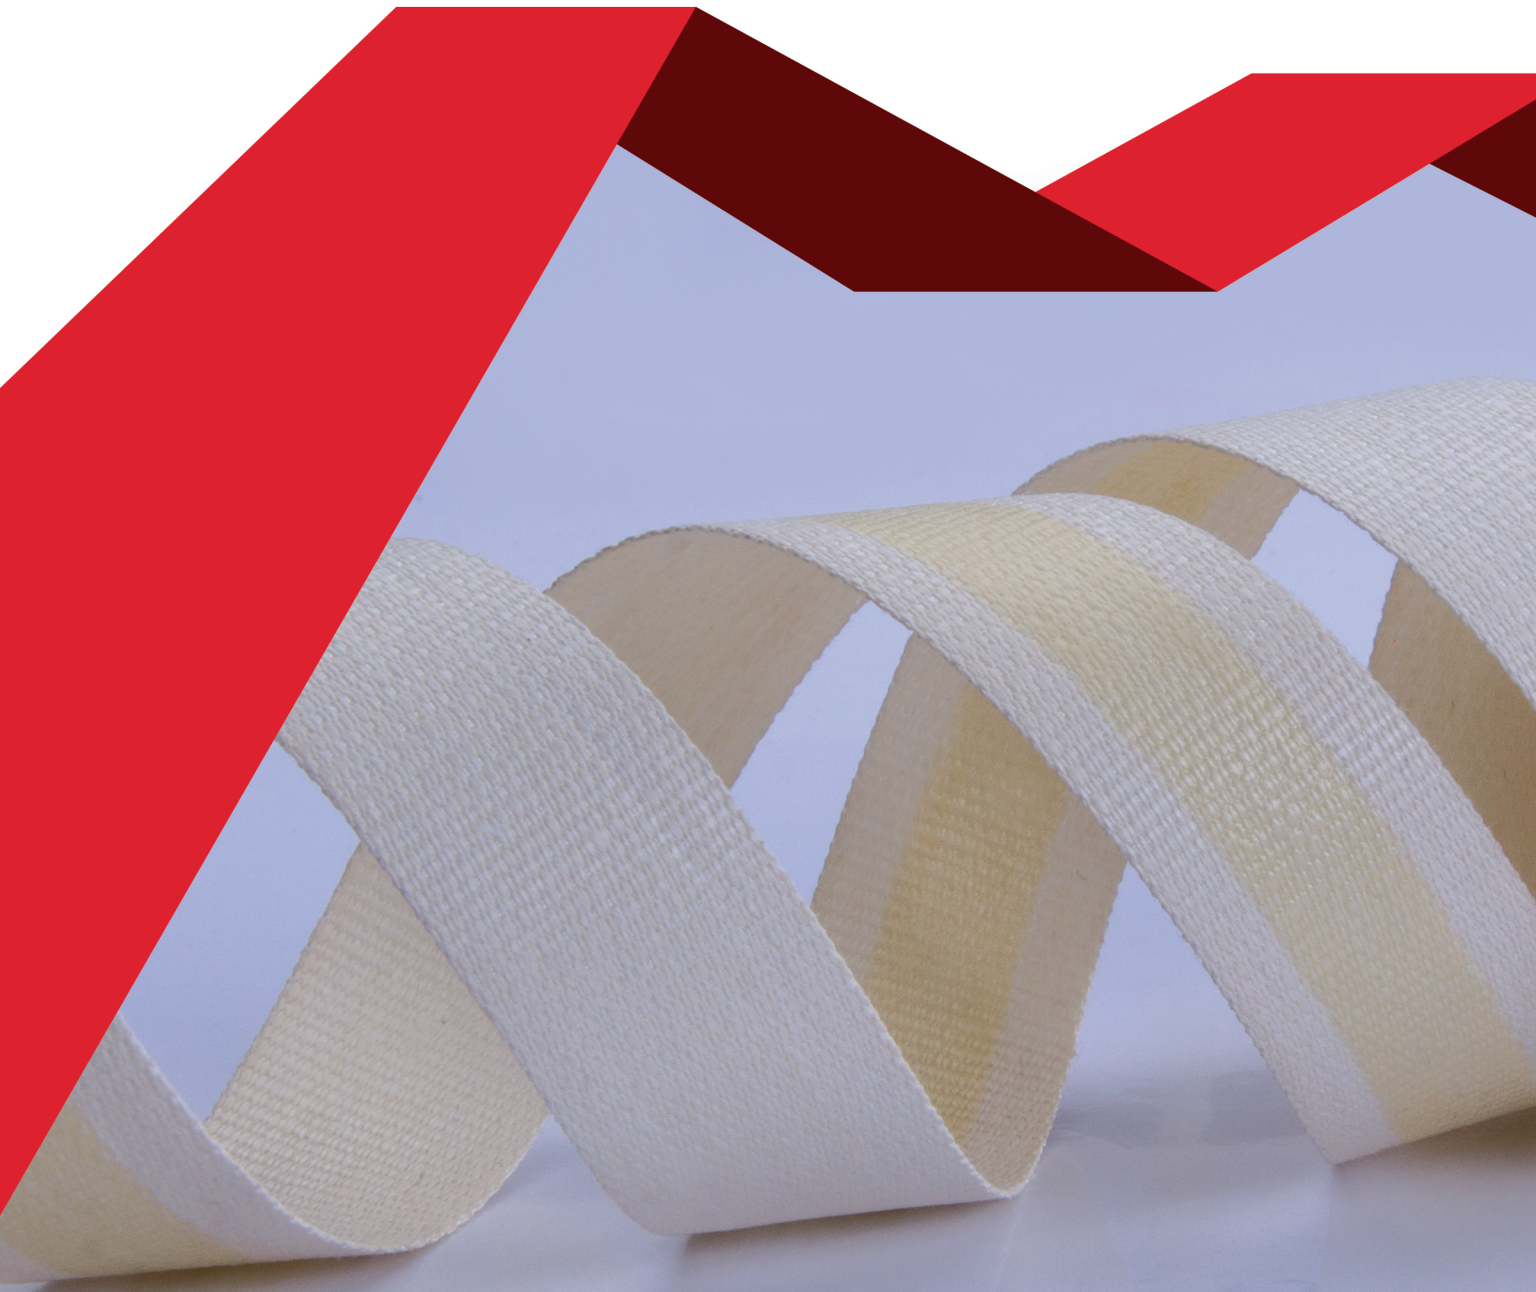

GARNITURE TAPES

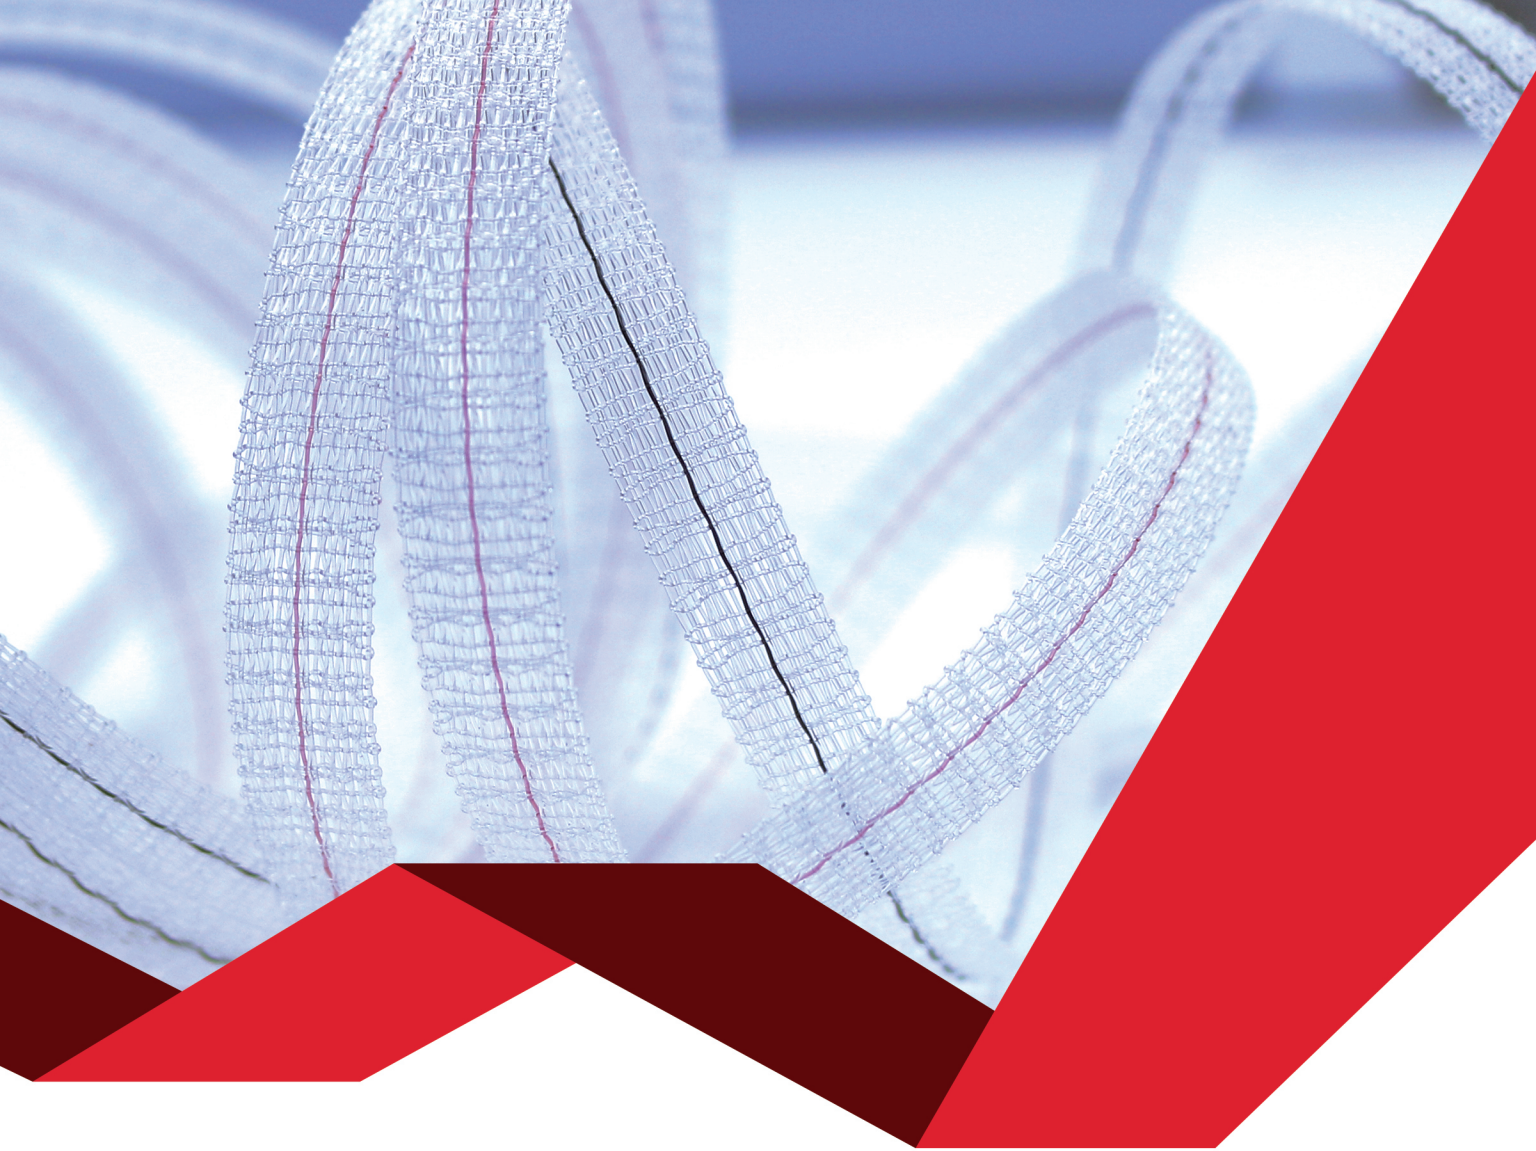

We manufacture garniture tapes from Linen (natural fiber – physiologically safe), Aramide (high-tech synthetic fiber – high tear resistance and temperature resistance) and Linen/Polyester mix material combination for both Cigarette and filters making.

Depending on the type of application or paper, for this we recommend different tape surfaces with the following surface textures:

- uncoated
- center coated
- Full coated

Garniture tapes are manufactured in lengths of 2,000 to 5,000 millimeters, widths of 10 to 55 millimeters and thicknesses of 0.50 to 0.75 millimeters.

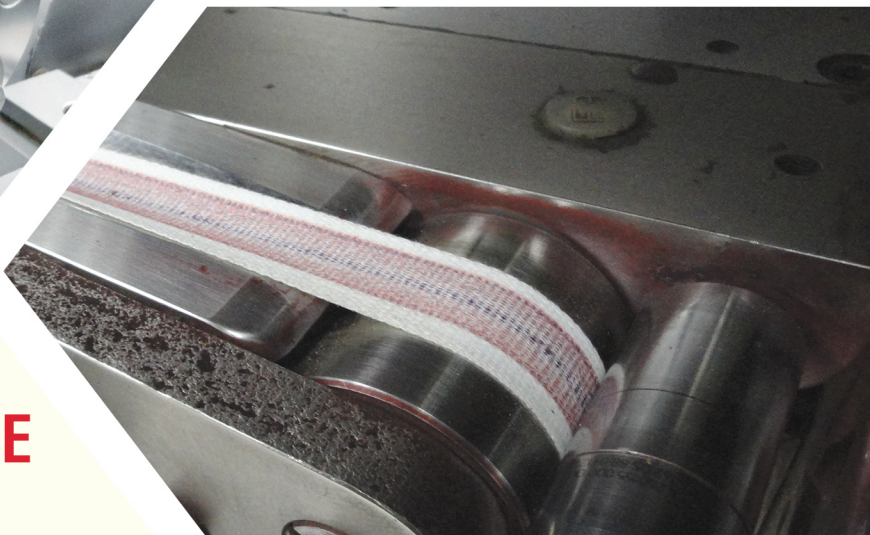

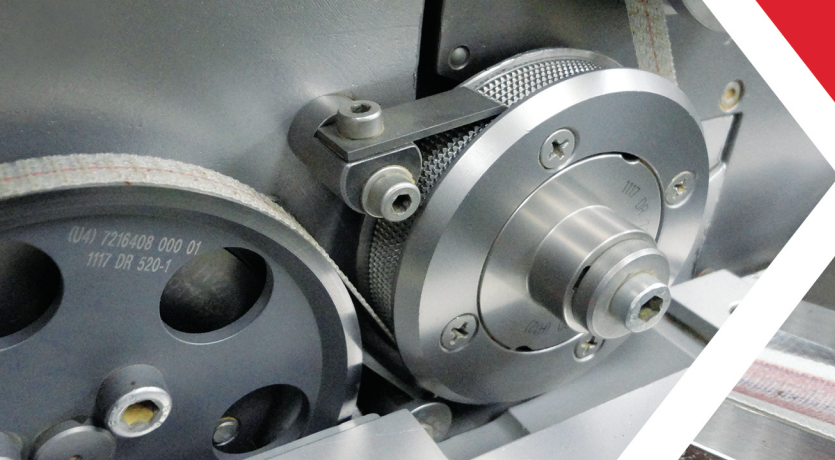

SUCTION TAPES

Our suction tapes provide optimum running properties for a very wide range of tobacco blends. A variety of surface textures are required for this. With different tape roughness's (from very rough to smooth) and air permeability values, we offer a broad product range for all tobacco types and blends.

We manufacture suction tapes in lengths of 1000 to 12,000 millimeters and widths of 6 to 50 millimeters. Preferred materials are polyamide (synthetic fiber).
